

# Roll-Rite® Super Duty Series

Dump Truck & Trailer Tarp Systems

...for multi-axle trucks with up to 26 feet of tarp or trailers with up to 44 feet of tarp

# Roll-Rite® Super Duty Series

Electric Motor

Tarp Spool Kits

Arms & Bows

Pivot Mounts

Quality, durable tarp components engineered for demands of heavy duty truck & trailer tarping.

## Super Duty Tarp Systems May Include:

- **The Electric Motor:**  
Reliable, Long-Life. Our patented Super Duty gear motor, designed for the high-torque demands of tarping, features a spur and helical gear configuration with forged heat treated gears and precision ground bearings for a much longer-life transmission. Features the industry's only 5-year non-prorated warranty against premature wearout
- **The Tarp Spool Kits:**  
Easy Installation. Our tarp spool kits are available in a variety of mounting options and come complete with gear motor, tarp axle with stub shaft, electric kit, wiring and mounting hardware
- **The Roll-Rite Arms:**  
Durable Construction, Professional Appearance. Roll-Rite tarp arms consist of a lower pivot arm and telescopic upper tarp bow. Each are made from a specially treated, high strength extruded aluminum alloy for the lightest, most durable tarp arm with maximum strength to weight ratio and attractive profile
- **The Tension Bow:**  
Secure tarp behind truck cab guards that measure over 8" tall
- **The Offset Bow Arm Option:**  
Angles pivot arm profile to avoid load zone or clear cab doors. Available in 30° or 45° Elbows to offer widest range of adjustability for a customized fit
- **The Pivot Mounts:**  
External spiral torsion 5-spring pivots are suited for bigger dump trucks using tarps up to 26 feet. Optional mounting brackets are available. For trailers our Under Body, greasable roller bearing pivot mount offers a slimmer profile than external mount, available with straight or knuckle arms
- **The Knuckle Pivot Option:**  
For low clearance tarp arm operation, our optional knuckle pivot arm for trailers reduces interference from overhead hazards

▪ Dual Conductor Plug Set

▪ Contact Plates

▪ Rite-Touch™ Electric Kit Option

## Options & Accessories:

Convenient options and trailer accessories are available from Roll-Rite:

- Heavy Duty Dual Conductor Plug Set
- Contact Plates reduce amount of wiring necessary for longer trailers
- Rite-Touch™ Electric Kit with Amp Sensing Technology has built-in protection with auto shut off to prevent tripping of breaker on tarp wind up if operator does not release switch. Eliminates hassle of resetting tripped breakers and prevents downtime

## Super Duty 500

For Multi-Axle Trucks Using up to 26 feet of Tarp... Base System: #65710:

- Super Duty 97" Tarp Spool with Wind Deflector
- 5-Spring External Mount Pivot Set
- Tarp Bow
- Options shown at right: Elbows and Tension Bow

## Super Duty 5000

For Trailers Using up to 26 feet of Tarp... Base System: #65000:

- Super Duty 98" Tarp Spool with Integrated Housing
- 5-Spring Under Body Mount Pivot Set
- Wide Tarp Bow

## Super Duty 6000

For Trailers Using up to 34 feet of Tarp... Base System: #66000:

- Super Duty 98" Tarp Spool with Integrated Housing
- 6-Spring Under Body Mount Pivot Set
- Wide Tarp Bow
- Option Shown: Knuckle Pivot Set

## Super Duty 8000

For Trailers Using up to 44 feet of Tarp... Base System: #68000:

- Super Duty 98" Tarp Spool with Integrated Housing
- 8-Spring Under Body Mount Pivot Set
- Wide Tarp Bow

## Tarps By Roll-Rite®

Premium Mesh

- Load Type: Aggregates, General
- Fabric: 7.7 oz premium 7.5x5 weave with two 1000 denier polyester UV coated twisted strands (1500Dx1000D)
- Key Benefit: Premium strength, longer life cycle than industry standard mesh

HD Vinyl (18 oz)

- Load Type: Moisture or temperature sensitive (non-asphalt)
- Fabric: 18 oz. Heavy Duty waterproof vinyl (cold crack resistance -40°F)
- Key Benefit: Waterproof material to keep loads mostly dry or maintain temperature range (non-asphalt)

Heat Resistant Asphalt

- Load Type: Asphalt
- Fabric: 15 oz. vinyl urethane coated on both sides for high heat applications to 400°F (cold crack resistance -22°F)
- Key Benefit: Withstands up to 400F to help maintain proper asphalt temperature

Premium HD Mesh

- Load Type: Demanding Debris
- Fabric: 15 oz. premium PVC coated 6x6 weave with three 1300 denier high tenacity polyester threads that form single 3900 denier strand
- Key Benefit: Meets durability needs of more demanding loads
