

# Roll-Rite® TarpMaster® Series

Dump Trailer Tarp Systems

...for trailers using up to  
36 feet of tarp

# Roll-Rite® TarpMaster® Series

Electric Motor

Housing & Tarp Spool

Arms & Bows

Pivot Mounts

Quality, durable tarp components engineered for the demands of trailer tarping.

## TarpMaster® Tarp Systems May Include:

- **The Electric Motor:** The TarpMaster is engineered for high torque tarping. A high-polished chrome-plated casing, designed for virtually corrosion-proof protection, adds a distinct, professional appearance to your truck. The TarpMaster is warranted for a period of 5-years with the industry's only non-prorated warranty against premature wearout
- **The Housing & Tarp Spool Kits:** Easy Installation. Our housing and tarp spool kits are available in a variety of styles and mounting options. A wind deflector for standard wind and tarp protection mounts on the top rail of some trailer applications. Integrated Housing with gussets are available for mounting forward on trailer. Kits come complete with gear motor, tarp axle with stub shaft, electric kit, wiring and mounting hardware
- **The Roll-Rite Arms:** Durable construction, professional appearance. Roll-Rite tarp arms consist of a lower pivot arm and telescopic upper tarp bow. Each are made from a specially treated, high strength extruded aluminum alloy for the lightest, most durable tarp arm with maximum strength to weight ratio
- **The Offset Bow Arm Option:** Angles pivot arm profile to avoid load zone. Available in 30° or 45° Elbows to offer widest range of adjustability for a customized fit.
- **The Pivot Mounts:** External spiral torsion 5-spring or 5-spring Under Body pivots are suited for trailers using up to 26 feet of tarp. Optional mounting brackets are available. A 6-spring Under Body variation is suited for trailers using up to 36 feet of tarp.
- **Rite-Touch™ Option:** Rite-Touch™ Electric Kit with Amp Sensing Technology has built-in protection with auto shut off to prevent tripping of breaker on tarp wind up if operator does not release switch. Eliminates hassle of resetting tripped breakers and prevents downtime

## Housing Styles:

Roll-Rite offers housing styles to suit your trailer needs.

- Integrated

- Wind Deflector

- Rite-Touch™ Electric Kit Option

## TarpMaster® 5000ETM
