REQUIRED TRAILER MEASUREMENTS

If applicable, see **How to Measure, p.2** for general trailer guidelines and considerations — Please use INCHES for all unit measurements

1. Overall Trailer Length in Inches: (A)

Please enter trailer length in Inches. Measure from the front of front header to the front of tailgate on Smooth Side and Sheet & Post style Transfer Trailers. Measure from the front of front header to the back of rear header on Chip style Sheet & Post. Specify distance in inches below:

Enter trailer length in inches here.

2. Outside Trailer Width in Inches:

Please enter the trailer width in Inches. Measure from the outside of Top Rail to outside of Top Rail in three locations.

FRONT (B1) Enter trailer width in inches here. MIDDLE (B2) Enter trailer width in inches here. REAR (B3) Enter trailer width in inches here.

3. Radius/Chamfer Length in Inches: (C)

Please enter the Corner length in Inches. To measure, lay a straight edge or string across the Top of trailer from trailing edge of corner. Measure from the front of top rail to the straight edge/string.

INSIDE (C)
Enter Corner Length in inches here.

4. Does trailer have a support member in Top of Trailer?

☐ YES

☐ NO

5. If trailer has a support member in Top of Trailer, Please identify the Support Type in Top of Trailer

☐ BAR

☐ CABLE

☐ CHAIN

☐ N/A

6. If trailer has a support member in Top of Trailer, Please identify the Support Position in Top of Trailer

☐ FRONT

☐ CENTER

☐ REAR

☐ N/A

7. Please manually sketch the position and orientation (perpendicular or diagonal) of each support from front to rear on the diagram at right and Enter Dimension in inches from front to rear as needed:

8. Does trailer have a ladder in the front or rear?

☐ FRONT

☐ REAR

☐ N/A

If YES, please specify details about the position of the ladder(s) and the distance it extends beyond the trailer

Front		Back
